EDITORIAL

The African Journal of Earth and Environmental Sciences (AJEES) is a peer-review journal dedicated to the publishing of well researched high quality papers and scientific communication from the African continent. The journal covers a wide range of disciplines such as Architecture, Environmental Sciences, Estate Management, Geography, Geology, Urban and Regional Planning, Quantity Surveying and other allied disciplines. AJEES aspires to be a premier scholarly platform amongst African scholars and professionals. The journal accepts publications from academia, industry and practitioners

The Publication of the journal is to ensure wide dissemination of scientific research findings that will promote human development using evidence-based findings and collaboration in the areas within the scope of the journal. AJEES will ensure that expected standard is maintained in all the subsequent editions with the assistance of our highly qualify and experienced team of reviewers.

It is important to thank our team of experienced professionals that ensured tardiness in the editing processes of the manuscripts despite their tight schedules. This will encourage patronage of the journal and help in advancing the career of the contributing authors. The Editorial Board members also deserve commendation for their collective resolve to promote the journal. Thank you for the effort in promoting educational ideals.
